

Safety Data Sheet LAseal

This safety data sheet was created pursuant to the requirements of:

Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

This SDS is for generic information purposes and does not reflect required country specific information for OEL

Revisionsdatum: 2023-10-17 Vers: 1

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

· Product name: LAseal Leif Arvidsson AB

· Pure substance/mixture: Mixture

Form: substance/mixture contains nanoforms

1.2 Relevant identified uses of the substance or mixture and uses advised against

· Recommended use: Adhesives and/or sealants

Uses advised against: May not be used in articles intended for direct or prolonged skin contact.

May not be used in the manufacture of toys and childcare articles Fabric, textiles and clothing:

bedding and garments Gloves Footwear (shoes, boots) Paper goods: napkins, towels, disposable plates, nappies, hygiene products for women, incontinence products, writing paper

Why uses are advised against Restricted substance according to REACH Annex XVII

1.3 Details of the supplier of the safety data sheet

LEIF ARVIDSSON AB, Målaregatan 5, 565 33 Mullsjö, Sverige

Tel:+46(0)392-36010 E-mail: info@leifarvidsson.se Internet: www.leifarvidsson.se

1.4 Emergency telephone number

112

SECTION 2: Hazards identification

Regulation (EC) No 1272/2008

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

2.2. Label elements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

Hazard statements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

EU Specific Hazard Statements

EUH208 - Contains Trimethoxyvinylsilane. May produce an allergic reaction

EUH212 - Warning! Hazardous respirable dust may be formed when used. Do not breathe dust

EUH210 - Safety data sheet available on request

2.3. Other hazards

Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon curing. Harmful to aquatic life.

PBT & vPvB

This mixture contains no substance considered to be persistent, bioaccumulating or toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (VPVB).

Revision date 2023-10-17 Page 1 of 13

Classification according to Regulation (EC) No. 1272/2008 [CLP] - Notes

[[C] - Components with occupational exposure limits and/or biological occupational exposure limits requiring monitoring

Acute Toxicity Estimate

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATEmix) for classifying a mixture based on its components

Chemical name	EC No	CAS No	Oral LD50	Dermal LD50	Inhalation	Inhalation	Inhalation
			mg/kg	mg/kg	LC50 - 4 hour -	LC50 - 4 hour -	LC50 - 4 hour -
					dust/mist -	vapour - mg/L	gas - ppm
					mg/L		
Titanium dioxide	236-675-5	13463-67-7	-	-	-	-	-
Trimethoxyvinylsilane	220-449-8	2768-02-7	-	-	-	11	-

Chemical name	EC No	CAS No	Oral LD50	Dermal LD50	Inhalation	Inhalation	Inhalation
			mg/kg	mg/kg	LC50 - 4 hour -	LC50 - 4 hour -	LC50 - 4 hour -
					dust/mist -	vapour - mg/L	gas - ppm

Bis(2,2,6,6-tetramethyl-	258-207-9	52829-07-9	-	-	-	-	-
4-piperidyl) sebacate							
Dioctyltin oxide	212-791-1	870-08-6	-	-	-	-	-

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

Notes

See section 16 for more information

Chemical name	Notes
Titanium dioxide - 13463-67-7	V,W,10

Page 2 Of 13 Revision date 2023-10-17

SECTION 4: First aid measures

4.1. Description of first aid measures

· General advice: Show this safety data sheet to the doctor in attendance.

If medical advice is needed, have product container or label at hand.

· Inhalation: Remove to fresh air. If symptoms persist, call a doctor.

· Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

· Skin contact: In the case of skin irritation or allergic reactions see a doctor. Wash skin with soap and water.

· Ingestion: Call a doctor immediately. Rinse mouth thoroughly with water.

Never give anything by mouth to an unconscious person. Small amounts of toxic methanol are released by hydrolysis.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms: None known.

4.3. Indication of any immediate medical attention and special treatment needed

Note to doctors: Treat symptomatically. Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released

upon curing.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable Extinguishing Media Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam.

Unsuitable extinguishing media Full water jet.

5.2. Special hazards arising from the substance or mixture

Specific hazards arising from the chemical Thermal decomposition can lead to release of irritating gases and vapours.

Hazardous combustion products

Carbon oxides. Carbon monoxide. Carbon dioxide (CO2). Nitrogen oxides (NOx).

Silicon ioxide.

5.3. Advice for firefighters

Special protective equipment and precautions for fire-fighters:

Wear self contained breathing apparatus for fire fighting if necessary.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions

Use personal protective equipment as required. Ensure adequate ventilation.

Do not get in eyes, on skin, or on clothing.

For emergency responders

Use personal protection recommended in Section 8.

6.2 Environmental precautions

Environmental precautions Prevent product from entering drains. Do not allow to enter into soil/subsoil.

See Section 12 for additional Ecological Information.

6.3. Methods and material for containment and cleaning up

Methods for containment Do not scatter spilled material with high pressure water streams.

Take up mechanically, placing in appropriate containers for disposal.

Prevention of secondary hazards Clean contaminated objects and areas thoroughly observing environmental regulations.

6.4 Reference to other sections

See section 8 for more information. See section 13 for more information.

Revision date 2023-10-17 Page 3 of 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling: Ensure adequate ventilation.

Do not eat, drink or smoke when using this product. Wash hands before breaks and after work. General hygiene considerations:

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions: Protect from moisture. Keep away from food, drink and animal feedingstuffs.

Recommended storage temperature: Keep at temperatures between 10 and 35 °C.

7.3. Specific end use(s)

Specific end uses: Adhesives and/or sealants.

Risk Management Methods (RMM) The information required is contained in this Safety Data Sheet.

Observe technical data sheet. Other information:

SECTION 8: Exposure controls/personal protection

Only European Community Occupational Exposure Limits will be shown in this document. Please refer to regional SDS for further information.

8.1 Control parameters

Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and released upon **Exposure Limits**

curing. This product contains titanium dioxide in a non-respirable form.

Inhalation of titanium dioxide is unlikely to occur from exposure to this product.

8.2. Exposure controls

Ensure adequate ventilation, especially in confined areas. **Engineering controls**

Personal protective equipment Eye/face and hand protection: Wear safety glasses with side shields (or goggles).

Eye protection must conform to standard EN 166.

Wear suitable gloves. Recommended Use:. Neoprene™. Nitrile rubber. Butyl rubber. Glove thickness > 0.7mm. The breakthrough time for the mentioned glove material is in general greater than 480 min. Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves. Gloves must conform to standard EN 374

Revision date 2023-10-17 Page 5 of 13 **Skin and body protection**None under normal use conditions.

Respiratory protection: In case of inadequate ventilation wear respiratory protection. Wear a respirator

conforming to EN 140 with Type A/P2 filter or better.

None known

Ensure adequate ventilation, especially in confined areas.

Recommended filter type: Organic gases and vapours filter conforming to EN 14387. White. Brown.

Environmental exposure controls Do not allow uncontrolled discharge of product into the environment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Solid
Appearance Paste
Colour White
Odour Characteristic.

Not applicable

9.2.2. Other safety characteristics

No information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity Product cures with moisture.

10.2. Chemical stability

Stability Stable under normal conditions.

Explosion data

Sensitivity to mechanical None.

impact

Sensitivity to static discharge None.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

Page 6 Of 13 Revision date 2023-10-17

SECTION 10: Continues

10.4. Conditions to avoid

Product cures with moisture. Protect from moisture. Conditions to avoid

Exposure to air or moisture over prolonged periods. Do not freeze. Keep away from open flames, hot surfaces and sources of ignition.

10.5. Incompatible materials Incompatible materials

None known based on information supplied.

10.6. Hazardous decomposition products

None under normal use conditions. Hazardous decomposition products

Small amounts of methanol (CAS 67-56-1) are formed by hydrolysis and

released upon curing.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of exposure

Product information

Based on available data, the classification criteria are not met.. Inhalation

Based on available data, the classification criteria are not met. Eye contact

Skin contact Based on available data, the classification criteria are not met.

May cause sensitisation in susceptible persons.

Based on available data, the classification criteria are not met. Ingestion

Symptoms related to the physical, chemical and toxicological characteristics

No information available. Symptoms

Acute toxicity

Numerical measures of toxicity

The following values are calculated based on chapter 3.1 of the GHS document ATEmix (inhalation-vapour) 708.00 mg/l

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Titanium dioxide	>10000 mg/kg (Rattus)	LD50 > 5000 mg/Kg	= 5.09 mg/L (Rattus) 4 h

12.4. Mobility in soil

Mobility in soil No information available.

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment

Chemical name	PBT and vPvB assessment	
Titanium dioxide	The substance is not PBT / vPvB PBT assessment does	
	not apply	
Trimethoxyvinylsilane	The substance is not PBT / vPvB	
Bis(2,2,6,6-tetramethyl-4-piperidyl) sebacate	The substance is not PBT / vPvB	
Dioctyltin oxide	The substance is not PBT / vPvB	

12.6. Endocrine disrupting properties

Endocrine disrupting properties No information available.

12.7. Other adverse effects No information available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste from residues/unused products Dispose of contents/container in accordance with local, regional, national,

and international regulations as applicable.

Handle contaminated packages in the same way as the product itself. Contaminated packaging

08 04 10 waste adhesives and sealants other than those mentioned in 08 04 09 European Waste Catalogue

Waste codes should be assigned by the user based on the application for which the product was used Other information

Page 10 Of 13 Revision date 2023-10-17

SECTION 14: Transport information

Land transport (ADR/RID)	
14.1 UN number or ID number	Not regulated
14.2 Proper Shipping Name	Not regulated
14.3 Transport hazard class(es)	Not regulated
14.4 Packing group	Not regulated

14.6 Special Provisions) None

Section 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

European Union

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work

Check whether measures in accordance with Directive 94/33/EC for the protection of young people at work must be taken.

Take note of Directive 92/85/EC on the protection of pregnant and breastfeeding women at work

Registration, Evaluation, Authorization, and Restriction of Chemicals (REACh) Regulation (EC 1907/2006)

SVHC: Substances of Very High Concern for Authorisation:

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

EU-REACH (1907/2006) - Annex XVII - Substances subject to Restriction

This product contains one or more substance(s) subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII).

Chemical name	CAS No	Restricted substance per REACH Annex XVII
Dioctyltin oxide	870-08-6	20.

Substance subject to authorisation per REACH Annex XIV

This product does not contain substances subject to authorisation (Regulation (EC) No. 1907/2006 (REACH), Annex XIV)

Export Notification requirements

This product contains substances which are regulated pursuant to Regulation (EC) No. 649/2012 of the European parliament and of the council concerning the export and import of dangerous chemicals

Chemical name	European Export/Import Restrictions per (EC) 689/2008 - Annex
	Number
Dioctyltin oxide - 870-08-6	l.1

Revision date 2023-10-17 Page 11 of 13

SECTION 15: Continues

Ozone-depleting substances (ODS) regulation (EC) 1005/2009

Not applicable

Persistent Organic Pollutants

Not applicable

National regulations

France

Germany

Ordinance on Industrial Safety and Health - Germany - BetrSichV

No flammable liquids in accordance with BetrSichV

Water hazard class (WGK) slightly hazardous to water (WGK 1)

Netherlands

List of Carcinogenic, mutagenic and reproductive toxin substances in accordance with Inspectorate SZW (Netherlands)

Not Listed

Denmark

Registration number(s) (P-no.) No information available

Norway

Registration number(s) (PRN-no.) No information available

15.2. Chemical safety assessment

Chemical Safety Assessments have been carried out by the Reach registrants for substances registered at >10 tpa. No Chemical Safety Assessment has been carried out for this mixture.

SECTION 16: Other information

Key or legend to abbreviations and acronyms used in the safety data sheet

Full text of H-Statements referred to under section 3

H226 - Flammable liquid and vapour

H317 - May cause an allergic skin reaction

H318 - Causes serious eye damage

H332 - Harmful if inhaled

H361f - Suspected of damaging fertility

H400 - Very toxic to aquatic life

H411 - Toxic to aquatic life with long lasting effects

Notes assigned to an entry

Note V: If the substance is to be placed on the market as fibres (with diameter $< 3 \mu m$, length $> 5 \mu m$ and aspect ratio $\ge 3:1$) or particles of the substance fulfilling the WHO fibre criteria or as particles with modified surface chemistry, their hazardous properties must be evaluated in accordance with Title II of this Regulation, to assess whether a higher category (Carc. 1B or 1A) and/or additional routes of exposure (oral or dermal) should be applied

Note W: It has been observed that the carcinogenic hazard of this substance arises when respirable dust is inhaled in quantities leading to significant impairment of particle clearance mechanisms in the lung

Notes relating to the classification and labelling of mixtures

Note 10: The classification as a carcinogen by inhalation applies only to mixtures in powder form containing 1 % or more of titanium dioxide which is in the form of or incorporated in particles with aerodynamic diameter ≤ 10 µm

SVHC: Substances of Very High Concern for Authorisation:

PBT: Persistent, Bioaccumulative, and Toxic (PBT) Chemicals

vPvB: Very Persistent and very Bioaccumulative (vPvB) Chemicals

STOT RE: Specific target organ toxicity - Repeated exposure

STOT SE: Specific target organ toxicity - Single exposure

EWC: European Waste Catalogue
